MORSE LA 70559

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER COLLECTION 1	2	8
WASTEWATER TREATMENT 1	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

PLAQUEMINE LA 70765-0150

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 2	7	8
WASTEWATER COLLECTION 2	8	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

KENNETH BIAGASE
OPERATOR ID#: 6614
920 SOUTH BULLARD STREET
OPELOUSAS LA 70570

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER TREATMENT 1	15	16

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

LAKE CHARLES LA 70605

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER TREATMENT 4	0	8
WATER DISTRIBUTION 3	0	8
WATER PRODUCTION 4	0	8
WASTEWATER TREATMENT 3	0	8
WASTEWATER COLLECTION 3	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 2	0	8
WASTEWATER COLLECTION 2	8	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

BATON ROUGE LA 70808

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 1	0	8
WASTEWATER COLLECTION 1	7	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

NEW ORLEANS LA 70117

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 2	2	8
WASTEWATER COLLECTION 4	8	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

RIDGCREST LA 71334

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER PRODUCTION 4	0	8
WATER TREATMENT 4	0	8
WATER DISTRIBUTION 4	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER DISTRIBUTION 2	0	8
WATER PRODUCTION 2	0	8
WATER TREATMENT 2	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

JONESBORO LA 71251

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER DISTRIBUTION 1	0	8
WATER PRODUCTION 2	0	8
WATER TREATMENT 1	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

MADISONVILLE LA 70447

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER COLLECTION 2	8	16

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

GONZALES LA 70737

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 2	0	8
WASTEWATER COLLECTION 2	4	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

NEW ORLEANS LA 70125

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless your obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER COLLECTION 3	0	8
WASTEWATER TREATMENT 4	7	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

OPERATOR ID#: 9336
POST OFFICE BOX 32
PARADIS LA 70080

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 1	0	8
WASTEWATER COLLECTION 1	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

JONESBORO LA 71251

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER PRODUCTION 3	0	8
WATER DISTRIBUTION 3	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

SHEILLA GUZMAN
OPERATOR ID#: 27288
1192 SLAGLE RD
LEESVILLE LA 71446

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER TREATMENT 1	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

BATON ROUGE LA 70814

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 1	0	8
WASTEWATER COLLECTION 1	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

SHREVEPORT LA 71118

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER TREATMENT 1	0	8
WATER DISTRIBUTION 1	0	8
WATER PRODUCTION 1	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 2	0	8
WASTEWATER COLLECTION 2	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 1	0	16

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

NEW IBERIA LA 70560

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER PRODUCTION 1	0	8
WATER TREATMENT 1	0	8
WASTEWATER TREATMENT 4	0	8
WASTEWATER COLLECTION 3	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER TREATMENT 3	0	8
WATER DISTRIBUTION 2	0	8
WATER PRODUCTION 2	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER COLLECTION 3	8	16

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

LACOMBE LA 70445

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 1	0	8
WASTEWATER COLLECTION 1	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER DISTRIBUTION 3	0	16

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER PRODUCTION 1	0	8
WATER TREATMENT 1	0	8
WATER DISTRIBUTION 1	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

POST OFFICE BOX 11623
NEW IBERIA LA 70562-1623

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER TREATMENT 4	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

LAFAYETTE LA 70506

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 1	15	16

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

BATON ROUGE LA 70820-4450

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER TREATMENT 4	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

SPEARVILLE LA 71277

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER DISTRIBUTION 2	0	8
WATER PRODUCTION 2	0	8
WATER TREATMENT 2	0	8
WASTEWATER COLLECTION 1	0	8
WASTEWATER TREATMENT 1	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER TREATMENT 1	0	8
WATER DISTRIBUTION 1	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

Thank you.

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WATER DISTRIBUTION 2	0	8
WATER PRODUCTION 2	0	8
WATER TREATMENT 2	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.

SHREVEPORT LA 71148

In order to qualify for renewal of water and wastewater operator certificates, operators must attend a minimal number of contact hours of approved operator training for each certificate held during the previous two-year cycle. A minimum of 16 contact hours is required for renewal of any certification held in water categories or 8 hours per certificate whichever is greater. Likewise, a minimum of 16 contact hours is required of any certification held in wastewater categories.

In accordance with the provisions of Paragraph 7327(A) of the Water and Wastewater Operator Certification rule, the following certificates will not be eligible for renewal on January 1, 2016 unless you obtain the required training contact hours:

<u>License(s)</u>	<u>Hours Attained</u>	<u>Hours Required</u>
WASTEWATER TREATMENT 1	0	8
WASTEWATER COLLECTION 1	0	8

If you do not get the required hours before the end of the current cycle, then you must take and pass the operator exams in sequence, starting with Class 1, and must meet all education and experience requirements as stated in Section 7309 of the Water and Wastewater Operator Certification Rule.

If you feel you have received this letter in error, please call the Operator Certification Office at (225)342-7508 or write the Office at the address below.
